

Welcome to the Certification Corner!

Certification is the foundation of AAHAM. It's the unique thing that we offer that no one else does.

Certification is an integral part of our careers as Revenue Cycle Managers and Directors. Certification assists us in keeping pace with industry changes, and helps us to remain compliant with ever-changing regulations. Earning a professional certification shows your commitment, professionalism and expertise in your chosen field.

The Keystone Chapter is proud of its certified members and continues to support its members in achieving all levels of certification (executive, professional and technical).

An area of critical importance is the Keystone Chapter's commitment to the technical certification programs available through AAHAM. Many of our members support their staff in achieving technical certification as we recognize the need for technical proficiency which allows our staff to excel and reach their potential.

Achieving executive, professional or technical certification is an investment in your professional career and personal growth.

Study sessions are available to our Keystone AAHAM Members, to help prepare for your certification exam. If you are interested in any of the certification programs, please contact Carolyn Brown, CRCE-I, Certification Chairperson at 717-270-2460 or cbrown31@wellspan.org .
